

Business and Technology Services

Containing Costs and Maximizing Revenue

Connectiv Solutions services are focused on reducing network expenses and maximizing revenue. Our team of experts delivers accurate and measurable bottom-line results with tangible process improvements for our clients.

“More than
\$100 Million Saved
by Connectiv Solutions' clients”

Traffic Management

Create a clear path to optimize your network and reduce expenses with our Planning Solutions and LNP Dip Services.

Interconnect Management

Confidently initiate or re-open negotiations by leveraging our Carrier Management, Telco Billing and Network Audit services.

Revenue Assurance

Are your third-party invoices accurate? We help you develop controls to validate and eliminate unnecessary costs with third-party products and services so you pay only what you owe.

Managed Services

Do more with less. Connectiv Solutions provides a team of experts to augment your internal staff – allowing you to focus on more strategic activities to sustain profitable growth.

Fraud/Traffic Pumping Assessment

We introduced the industry's first annual Traffic Pumping Impact report utilizing a proprietary sampling methodology. We use that same process to identify and quantify our client's cost exposure to Traffic Pumping.

Custom Studies

We recognize that there are unique challenges and issues that face every carrier and work to find answers to your questions and solve your challenges – no matter how complex.

Data Storage and Retrieval

Our Data Storage offering is delivered using carrier class equipment within a SAS 70 Type II environment so your data is well protected, yet easily retrievable for future disputes or audits.
